LASER GENESIS

This is a breakthrough non-invasive & gentle laser treatment with NO downtime that stimulates the skin's natural processes to diminish the signs of ageing & sun damage to promote a vibrant, healthy-looking complexion. Suitable for all skin types, Laser Genesis gently delivers heat to address fine lines & wrinkles, scars, diffuse redness, acne & rosacea, whilst improving skin quality. We recommend a course of 3-5 treatments, 2-4 weeks apart for best results.

FRACTIONAL CO₂RE LASER

The CO₂RE LASER by Candela Medical is the gold standard in skin resurfacing & treats the advanced signs of ageing in a single treatment.

It is considered a semi-surgical procedure & is only performed by our Cosmetic Doctors. Improve skin tone & texture, sun damaged skin, wrinkles & fine lines, acne scars, striae & surgical scars. The down time of the treatment is 10-14 days, with the skin continuing to improve over the next 4-6 months. Treatments range from mild to intense.

CO₂RE INTIMA

The CO₂RE Intima treatment is performed by Dr Bonnie to restore vaginal tone, flexibility and shape. This is a TGA approved LASER energy procedure to treat some of the symptoms that women may suffer after childbirth or menopause, e.g., vaginal dryness, burning, laxity or altered appearance. It may also help in some cases of stress incontinence (leaking of urine when coughing or laughing). We recommend 3 treatments, 4-6 weeks apart.

MICRO-NEEDLING

This is a minimally invasive procedure that gently creates micro channels to the skin with tiny medical grade needles. This micro-injury induces collagen production & delivers impressive results in treating dull skin, giving a rejuvenated & younger look, whilst reducing pore size & scars from acne or surgery. The treatment finishes with applying a nourishing & calming mask, which delivers intense hydration. Usually we recommend 4-6 treatments, 4-6 weeks apart.

DERMAPLANING

Dermaplaning treatment is great for restoring a youthful glow, as the dead skin cells that sit in the hair on our face can give us a dull, lacklustre complexion. Removing this hair/"peach fuzz", along with the dead skin, will leave you with a healthy glowing complexion. It is performed using a sterile scalpel blade that gently glides over the skin & gives full-face exfoliation.

COSMELAN DEPIGMENTATION PEEL from 1800

Cosmelan is the world's leading professional depigmentation method that effectively reduces the dark spots caused by melanin, hyperpigmentation & ageing.

It is very effective in treating Melasma (a condition that is generally challenging to treat due to its persistence & the influence of hormones). Cosmelan is a 2-phase process, with the first step performed in the Clinic & the second step at home with application of suitable products that will be supplied in your package. When it comes to treating Melasma, a regular maintenance program is essential to help avoid reappearance. In severe cases a second Cosmelan Peel may be required after 6-12 months.

COSMELAN TREATMENT PACKAGE 2500

Includes your in home treatment products for 6 months (rather than 3 months), weekly Dermalux LED for 3 months & a hydrating facial (extra value of \$1188)

SKIN PEELS

Skin Peels are designed to remove the outermost surface of the skin. This cell layer is actually dead and accumulates on your skin, causing it to appear dull, dry and rough. This build up of dead skin can also result in clogged pores and unsightly blemishes. By removing the layer of dead skin, the products applied to healthy skin below are better able to absorb. Chemical peels will stimulate new epidermal growth and collagen production. We do recommend a course of at least 3 treatments, 2-4 weeks apart for optimal results.

PAPAYA HYDRATION PEEL (ALLOW 30 MINS) 100

Ideal introduction to peel treatments or for those with sensitive skin that require a gentle touch.

USED TO TREAT: dry, sensitive, sun damaged or hyper-pigmented skin.

Active ingredients: lactic acid (15%) + papaya enzyme.

SALICYLIC PURIFYING PEEL (ALLOW 30 MINS) 110

Ideal for acneic skin, the salicylic peel provides a deep, thorough cleansing of congested pores. With powerful anti-inflammatory properties, salicylic acid effectively calms sore red skin & helps manage any further flare ups.

USED TO TREAT: acne prone skin, enlarged pores & blackheads.

Active ingredients: salicylic acid (from 5%).

LACTIC BRIGHTENING PEEL (ALLOW 30 MINS) 110

Gentle exfoliating treatment that aids dehydrated, sun damaged or pigmented skin & overall it helps with skin clarity.

USED TO TREAT: dry & lifeless skin, sun damage,

hyper-pigmented skin, ageing.

Active ingredients: lactic acid (from 20%)

SALICYLIC & LACTIC LAYERED PEEL (ALLOW 45 MINS) 140

USED TO TREAT: acne prone skin, enlarged pores, blackheads, sun damage, ageing & can also help treat pigmentation.

Active ingredients: salicylic acid (from 5%) + lactic acid (from 20%).

JESSNER POWER PEEL (ALLOW 45 MINS) 160

Advanced clinical treatment that addresses progressed stages of cystic acne, sun damage, pigmentation & aged skin. Assisting with skin texture, discolouration, hydration & congestion, this peel is highly active & is ideally performed as a course to achieve best results. Active ingredients: salicylic acid, lactic acid, resorcinol & kojic acid.

COSMO PEEL FORTE - TCA (ALLOW 60 MINUTES) 450

A powerful combination of glycolic acid, TCA & phenol is used to induce medium chemical exfoliation of the skin to treat the advanced signs of ageing in a single treatment. Expect significant skin peeling for 7-14 days. USED TO TREAT: deeper lines & wrinkles, pigmentation, uneven skin texture, sun damage.

MELA PEEL FORTE (ALLOW 60 MINUTES) 250

A powerful combination of kojic acid, retinol, phytic acid, lactic acid & more are used to treat skin discolouration & unwanted pigment. Often used in combination with laser skin treatments in a cyclic course for best results. Expect moderate skin flaking for 5-10 days. USED TO TREAT: pigmentation, melasma, uneven skin tone & texture.

BIOSTIMULATING & BIOREMODELLING FILLERS

Biostimulating & Bioremodelling fillers are not "just another filler", they are injectables primarily used to stimulate collagen production & to improve the structure & quality of the skin.

As we age, the collagen content of the skin will decrease, leading to saggy & loose skin. Biostimulating fillers are an injectable treatment that stimulates your own skin's collagen & elastin production, leading to naturally fuller & firmer skin. The results are gradual, natural & long lasting for up to 24 months.

Bioremodelling fillers have been around for a long time, but they are going through a renaissance now, emerging back onto the market due to a shift in aesthetic medicine towards a more natural look.

This treatment is suitable for any part of the body, with most popular areas being the face, neck, hands & décolletage.

Typically, a collagen treatment program with Biostimulating fillers consists of 2-3 treatment sessions over a few months, but it can vary from person to person.

Full treatment from 850

SKIN BOOSTERS

This treatment is used to refresh & rejuvenate the face, neck, hands & décolletage. It involves a series of small injections of dermal fillers to the skin, which improves the hydration & elasticity of the skin, resulting in softening of fine lines & smoothing rough dehydrated skin & imperfections.

1 mL	2 mL	3 mL
350	650	900

THREADS

PDO MONO THREADS from 400

Designed to tighten & thicken your skin, to assist with fine lines & wrinkles without adding volume.

LONG LIFTING THREADS from 2500

These are a biodegradable thread, designed to lift an area of concern (e.g. jowling or sagging of the lower face or neck). Results typically last 18 months.

PRP (PLATELET RICH PLASMA)

PRP, otherwise known as the 'Vampire Facial' uses the patient's own blood, which is then spun with a centrifuge to separate the platelets from the red & white blood cells. The platelets are rich in certain proteins, known as 'Growth Factors', which stimulate collagen production & skin repair.

This treatment is effective in treating wrinkles, dark circles under the eyes, hair loss & 'crepey' neck. Ongoing improvement continues over the next 12 months. Usually we recommend 3 treatments, 4-6 weeks apart.

For even better results, consider combining PRP with RF or Dermapen treatments. One vial is used to treat one area of concern (e.g. eyes).
