#### HOW MANY SESSIONS ARE RECOMMENDED?

Your practitioner will recommend the optimal number of sessions to be performed based on your personal objectives. Treatment times and frequency will be specifically tailored to obtain the optimal results.

#### HOW QUICKLY WILL I SEE RESULTS?

Visible results can be seen within a few days, but typically after three weeks the most noticeable results appear. Improvements continue up to three months after treatment.

#### WHAT IS THE BENEFIT OF FRACTIONATED ENERGY?

Radiofrequency (RF) energy is a scientifically proven method to remodel and rebuild collagen. It is minimally invasive, using a matrix of micro pins to renew the deeper layers of the skin with almost no patient downtime.

#### CAN ANYONE USE MORPHEUS 8?

The benefit of Morpheus8's color blind technology is that it can be used on all skin types. The unique properties allow even darker tones to be treated.

#### CAN THIS BE USED IN COMBINATION WITH OTHER TREATMENTS?

Yes, Morpheus8 can be used in the same treatment session or a few days after other treatments. Morpheus8 can also be combined with other InMode energy treatments or injectables to achieve more extensive results.

#### WHEN CAN I PUT MAKE-UP ON AFTER TREATMENT?

Since patient downtime is minimal, makeup can be applied 1 to 2 days after the treatment. Patients should expect to see micro lesions a few days after treatment and slight redness depending on treatment parameters.

#### WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

Patients should moisturise the treatment area and avoid direct sun exposure. It is also recommended that patients use a broad spectrum sunscreen every day. In addition to reducing the risk of skin cancer, sunscreens also slow the ageing process.
