Sublime™

Reverse the signs of ageing limited downtime

Comfortably reverse the signs of ageing and achieve a more youthful appearance with limited downtime. elōs® is one of the first and only technology* that uses combined energies to successfully stimulate collagen production and improve your overall skin quality in areas that are most telling when it comes to age, such as the eyes, brow lines, cheeks and around the neck.¹⁻³

Skin before Sublime treatment

Skin after Sublime treatment

Advanced technologies enhanced appearance

The combined bi-polar radiofrequency and light energies of elōs® technology precisely heat the dermal tissue, stimulating collagen production within the target treatment area¹⁻². Fine wrinkles are reduced, skin irregularities improved and overall skin quality reveals a smoother and more even complexion.

When can I expect to see results?

Most patients see gradual and cumulative results throughout their Sublime treatment series. The total number of required treatment sessions depends on your skin's condition.

Is Sublime right for me?

elōs® technology can be a comfortable solution for most skin types. Talk to your healthcare provider about what results you can expect with your treatment.

What can you expect

Sublime is a non-invasive treatment requiring almost no downtime¹⁻². Many patients return to normal activities immediately after the treatment. Cooling of the skin's surface provides additional comfort.
