LASER GENESIS

This is a breakthrough non-invasive & gentle laser treatment with NO downtime that stimulates the skin's natural processes to diminish the signs of ageing & sun damage to promote a vibrant, healthy-looking complexion. Suitable for all skin types, Laser Genesis gently delivers heat to address fine lines & wrinkles, scars, diffuse redness, acne & rosacea, whilst improving skin quality. A course of 3-5 treatments, 2-4 weeks apart is required for noticeable results.

GLOBAL GLOW TREATMENT

This is our most popular Laser rejuvenation treatment for clearer & brighter skin, that addresses numerous skin conditions at the same time: ageing, unwanted pigment, redness, acne & enlarged pores. This procedure combines Laser Genesis + Pigment Reduction + Rosacea treatments + Acne in the one session.

	SINGLE TREATMENT
Full face	470

GENESIS TRIO

This luxurious treatment will leave your skin luminous, hydrated & smooth. We combine a **customised** peel, LED light & rejuvenating Laser Genesis treatment for that special occasion.

	SINGLE TREATMENT
Full face	390

DERMALUX LED

A non-invasive, no downtime 30 min treatment that instantly energises the skin cells to revitalise a dull & tired complexion. A course of treatments can accelerate skin renewal & resolve a range of skin concerns: acne, rosacea, dermatitis & pigmentation. It is also known to increase serotonin levels, which helps in fighting low mood & depression.

CO₂RE LASER RESURFACING

The CO₂RE LASER by Candela Medical is the gold standard in skin resurfacing & treats the **advanced** signs of ageing in a single treatment. It is considered a semi-surgical procedure & is only performed by our Cosmetic Doctors. Improve skin tone & texture, sun damaged skin, wrinkles & fine lines, acne scars, striae & surgical scars. The down time of the treatment is 10-14 days, with the skin continuing to improve over the next 4-6 months. Treatments range from mild to intense.

	SINGLE TREATMENT
Light CO ₂ treatment face	1100
Full face	4500
Face & neck	5000
Face, neck & décolletage - Price upon consultation	

Price is for a single treatment & includes:

- Pre + post treatment consultations with our doctor
- Post treatment cosmeceutical care pack (\$100 value)
- 2 x complimentary Dermalux LED sessions (\$198 value)

SKIN LESIONS, MOLES & SKIN TAG LASER REMOVAL

No referral is required from your GP & a skin check will be performed on the day to assess other concerns. Usually one treatment is needed, however some lesions may need retreating. If this is performed within 3 months of the initial treatment, the procedure is half price.

	SINGLE TREATMENT
Single tag & mole removal	270
Additional lesions performed on the same day	from 50
Lesions around eyes (using corneal shields)	480

INTRODUCING THE BEST VERSION OF YOU.

IGNITE RF BY INMODE

The latest ultimate non-surgical, high-definition skin tightening and contouring technology designed to address your facial and body concerns with its multiple technologies. Utilising clinically proven bipolar radio-frequency energy, IgniteRF precisely targets different tissue depths to provide highly effective treatments. This innovative platform delivers natural-looking results providing you with a seamless experience, offering both Morpheus8 and Quantum RF technology.

MORPHEUS8 BURST

Morpheus8 has become so popular that consumers and celebrities ask for it by name. Morpheus8 Burst is the updated skin treatment trusted to deliver optimal results. Advanced bipolar radio frequency micro-needling applicators are used to contract skin and address irregularities in smaller body zones. to reveal a more radiant, youthful appearance without surgery. This treatment is best for skin texture, lines and tightening and typically performed with numbing cream (included in the price).

MORPHEUS8 BURST DEEP BODY

Morpheus8 Burst Deep is an advanced solution for skin contraction in larger body areas. It's large surface tip provides the deepest levels of targeted energy available.

	SINGLE TREATMENT	3 TREATMENTS SAVE 20%	4 TREATMENTS SAVE 25%
Abdomen, upper arm, knees, upper thigh (price per area)	1250	1000	938

FRACTIONAL RESURFACING

A minimally invasive treatment utilising Morpheus8 Burst technology, delivering heat to target the **deeper** layer of the skin (dermal layer). It stimulates collagen production resulting in reduction of fine lines, mild to moderate wrinkles, acne & acne scarring. For noticeable results, 4-6 treatments, 4-6 weeks apart are required.

	SINGLE TREATMENT	4 TREATMENTS SAVE 20%	6 TREATMENTS SAVE 25%
Full face	550	440	412
Full face & neck	650	520	487

QUANTUM RF / BODYTITE / FACETITE / ACCUTITE

Doctor only procedure for skin tightening and contouring.

These procedures deliver minimally invasive radio-frequency assisted lypolysis treatment designed to tighten skin, reduce fat and contour the treated body area – without the need for surgery. Utilising precision RF energy, it stimulates collagen production and delivers considerable skin contraction and contouring in both larger and smaller body areas, depending on the applicator utilised. The result is a powerful solution for sagging skin and facial rejuvenation.

Each procedure includes a Morpheus8 treatment as well to further improve the skin tightening and contouring. Results are visible immediately post treatment and continue to improve over 6-12 months

	SINGLE TREATMENT
Upper eyelid	2000
Lower eyelid	2000
Periorbital (both eyelids)	3000
Lower face (including submental – below chin & jawline)	4500
Submental (below chin) & neck	3500

Due to changes in Australian advertising laws, we are no longer able to disclose information about pricing of treatments or use certain descriptive terms when utilising prescription medications. The optimum treatment type, dosages and pricing vary from person to person and must be agreed upon after a thorough consultation with an appropriately trained medical professional.

ANTI-WRINKLE TREATMENTS

Areas and concerns typically addressed include: frown lines, crows feet forehead lines, bunny lines, gummy smile, smoker's lines.

Masseter treatment - jaw slimming / teeth grinding

Trapezius treatment - shoulder slimming

Hyperhidrosis - excessive sweating

VOLUMISING TREATMENTS

We focus on a natural harmonisation of your best features, for a younger, refreshed look without the appearance of "having work done".

Areas typically addressed include the cheeks, facial folds, lips and nose.

BIOSTIMULATING & BIOREMODELLING TREATMENTS

BioStimulating & BioRemodelling treatments are specifically utilised to stimulate the structure & quality of the skin.

As we age, the collagen content of the skin will decrease, leading to saggy & loose skin. BioStimulating treatments activate your own skin's collagen & elastin production, leading to naturally fuller & firmer skin. The results are gradual, natural & long lasting for up to 24 months. This treatment is suitable for any part of the body, with most popular areas being the face, neck, hands & décolletage. Typically, a collagen treatment program aimed at Bio-stimulation involves a commitment towards 2-3 treatment sessions over a few months, but it can vary from person to person.

SKIN BOOSTERS

This procedure is used to refresh & rejuvenate the face, neck, hands & décolletage. It involves a series of small medically prescribed treatments to the skin, which improves the hydration & elasticity of the skin, resulting in softening of fine lines & smoothing rough dehydrated skin & imperfections.

THREADS

PDO MONO THREADS

from 400

Designed to tighten & thicken your skin, to assist with fine lines & wrinkles without adding volume.

KOREAN MINT LONG LIFTING THREADS

from 2500

These are a biodegradable thread, designed to lift an area of concern (e.g. jowling or sagging of the lower face or neck). Results typically last 18 months.

PRP (PLATELET RICH PLASMA)

PRP uses the patient's own blood, which is then spun with a centrifuge to separate the platelets from the red & white blood cells. The platelets are rich in certain proteins, known as 'Growth Factors'. When injected into the skin, it stimulates collagen production & skin repair. This treatment is effective in treating wrinkles, dark circles under the eyes, hair loss & "crepey" neck. Ongoing improvement continues over the next 12 months. A series of 3 treatments, 4-6 weeks apart is required to achieve the desired result. For even better results, consider combining PRP with Morpheus8 or Dermapen treatments. One vial is used to treat one area of concern (e.g. eyes).

FOLLOW UP WEIGHT OR MENOPAUSE CONSULTATION	100

MICRO-NEEDLING

This is a minimally invasive procedure that gently creates micro channels to the skin with tiny medical grade needles, after anesthetic cream is applied. This micro-injury induces collagen production & delivers impressive results in treating dull skin, giving a rejuvenated & younger look, whilst reducing pore size & scars from acne or surgery. The treatment finishes with applying a nourishing & calming mask, which delivers intense hydration.

For noticeable results, 4-6 treatments, 4-6 weeks apart are required.

	SINGLE TREATMENT	4 TREATMENTS SAVE 20%	6 TREATMENTS SAVE 25%

FACIALS

Facials are beneficial for all skin types. For noticeable results, each treatment should be performed once a month or at least seasonally. We offer the Synergie Skin range of Facial treatments & stock a wide range of Synergie products.

SKIN RESCUE MEDI-FACIAL (60 MINS)

Cleansing & exfoliating followed by steam (to enhance absorption of active ingredients). Whilst the steam is in use, experience the positive health benefits of this facial plus lower stress levels whilst enjoying a relaxing scalp massage, followed by mask application (depending on your skin type), serums & moisturiser.

SINGLE TREATMENT	3 TREATMENTS SAVE 20%
140	112

NEW LEAF SIGNATURE FACIAL (75 MINS)

Cleansing & exfoliating followed by a superb resurfacing Enzyme Peel. Build the barrier & boost skin immunity with a Repair & Restore mask. Reduce stress levels whilst enjoying a relaxing scalp & arm massage & enjoy the benefits of the firming, brightening & hydrating bio-alginate mask. Finish with serums, eye cream & moisturiser.

SINGLE TREATMENT	3 TREATMENTS SAVE 20%
170	136

DERMAPLANING

Dermaplaning treatment is great for restoring a youthful glow, as the dead skin cells that sit in the hair on our face can give us a dull, lacklustre complexion. Removing this hair/“peach fuzz”, along with the dead skin, will leave you with a healthy glowing complexion. It is performed using a sterile scalpel blade that gently glides over the skin & gives full-face exfoliation.

EXPRESS 30 MINS	DELUXE 60 MINS
95	165

SKIN PEELS

Skin Peels are designed to remove the outermost surface of the skin. This cell layer is actually dead and accumulates on your skin, causing it to appear dull, dry and rough. This build up of dead skin can also result in clogged pores and unsightly blemishes. By removing the layer of dead skin, the products applied to healthy skin below are better able to absorb. Chemical peels will stimulate new epidermal growth and collagen production. To achieve the desired results, a course of at least 3 treatments, 2-4 weeks apart is required.

- SALICYLIC PURIFYING PEEL** (ALLOW 30 MINS) 125
Ideal for acneic skin, the salicylic peel provides a deep, thorough cleansing of congested pores. With powerful anti-inflammatory properties, salicylic acid effectively calms sore red skin & helps manage any further flare ups. Used to treat: acne prone skin, enlarged pores & blackheads. Active ingredients: salicylic acid (from 5%).
- LACTIC BRIGHTENING PEEL** (ALLOW 30 MINS) 125
Gentle exfoliating treatment that aids dehydrated, sun damaged or pigmented skin & overall it helps with skin clarity. Used to treat: dry & lifeless skin, sun damage, hyper-pigmented skin, ageing. Active ingredients: lactic acid (from 20%).
- SALICYLIC & LACTIC LAYERED PEEL** (ALLOW 45 MINS) 150
Used to treat: acne prone skin, enlarged pores, blackheads, sun damage, ageing & can also help treat pigmentation. Active ingredients: salicylic acid (from 5%) + lactic acid (from 20%).
- JESSNER POWER PEEL** (ALLOW 45 MINS) 175
Advanced clinical treatment that addresses progressed stages of cystic acne, sun damage, pigmentation & aged skin. Assisting with skin texture, discolouration, hydration & congestion, this peel is highly active & is ideally performed as a course to achieve best results. Active ingredients: salicylic acid, lactic acid, resorcinol & kojic acid.
- COSMO PEEL FORTE – TCA** (ALLOW 45 MINS) 250
A powerful combination of glycolic acid, TCA & phenol is used to induce medium chemical exfoliation of the skin to treat the advanced signs of ageing in a single treatment. Expect significant skin peeling for 7-14 days. Used to treat: deeper lines & wrinkles, pigmentation, uneven skin texture, sun damage.
- MELA PEEL FORTE** (ALLOW 45 MINS) 325
A powerful combination of kojic acid, retinol, phytic acid, lactic acid & more are used to treat skin discolouration & unwanted pigment. Often used in combination with laser skin treatments in a cyclic course for best results. Expect moderate skin flaking for 5-10 days. Used to treat: pigmentation, melasma, uneven skin tone & texture.

COSMELAN DEPIGMENTATION PEEL

from 1800

Cosmelan is the world's leading professional depigmentation method that effectively reduces the dark spots caused by melanin, hyperpigmentation & ageing.

It is very effective in treating Melasma (a condition that is generally challenging to treat due to its persistence & the influence of hormones). Cosmelan is a 2-phase process, with the first step performed in the Clinic & the second step at home with application of suitable products that will be supplied in your package. When it comes to treating Melasma, a regular maintenance program is essential to help avoid reappearance. In severe cases a second Cosmelan Peel may be required after 6-12 months.

COSMELAN TREATMENT PACKAGE

2500

Includes your in home treatment products for 6 months (rather than 3 months), weekly Dermalux LED for 3 months & a hydrating facial (extra value of \$1188).
